REACH-Regulations / SVHC-List

The REACH regulation introduced in June 2007 according to EU directive 1907/2006 affects manufacturers, processors and customers in all sectors of the economy.

Against the background of a high level of delivery and product safety and in our own interest, we take our information obligations very seriously. Today we will inform you about the current status of REACH in our company.

According to Article 3 of the REACH regulation, A + C Plastic Kunststoff GmbH is a downstream user and our film products see themselves as "products". We are not obliged to register substances or to issue safety data sheets on substances and mixtures.

We urge our suppliers to provide us with binding information about the use or content of listed SVHC substances. From today's perspective, it cannot be assumed that our products contain SVHC substances in a mass concentration of more than 0.1 percent.

For this reason, with effect from January 5, 2021, there is no obligation to submit reports to the so-called SCIP database (Substances of Concern in Products). The associated list of particularly dangerous substances (SVHC) is published and available on the website of the European Chemicals Agency (ECHA) with the last status of June 25, 2020.

Should you have any further questions about the implementation of the REACH regulation in our company, we are of course at your disposal at any time.

Kunststoff GmbH

Sascha Rühle

(Sales Director)
